

# Suriname Int. Transport

*We don't promise, we deliver!*

**Your professional freight forwarder  
between Europe and South America**

## About us

### Company Profile

**Suriname International Transport (SIT)** was established in 1992 and during the years we specialized in all types of cargo and freight forwarding to and from Suriname - Guyana and French Guyana. Short after the start of our activities, **SIT** was accredited by the International Air Transport Association and granted the ISO 9001:2015 after a successful audit by TÜV the Netherlands. **SIT** is a full service cargo company specialized in all global freight. Our headquarters near Amsterdam Airport Schiphol is no coincidence.

Because of the shared history of Suriname and The Netherlands, the most offered cargo routes from and to Suriname by air and sea are between Suriname and the Netherlands.

Due to Suriname's **strategic location** with neighboring countries such as Guyana-Georgetown and French Guyana-Cayenne, we have invested and created a dedicated trucking route with Suriname as the starting country.

### ISO 9001-2015

**SIT** is audited to the ISO 9001:2015 standard for Quality Management Systems by TÜV, a world leading company in providing technology services and quality and safety auditing. **The International Organization for Standardization (ISO) 9001:2015** is the well-recognized international standard that specifies requirements for the company-wide Quality Management System (QMS). It establishes an effective quality management program for many types of companies and helps organizations consistently meet the needs of customers and other key stakeholders in both the delivery and continuous improvement of products and services.

### IATA

**SIT** is a full accredited **IATA Cargo Agent**. The Cargo Agency Program is managed by the **International Air Transport Association (IATA)** and provides access for IATA agents and airlines to both their global distribution network. Only cargo companies which can demonstrate its financial and professional competence are eligible to apply as IATA Cargo Agent.

From Europe we operate as dedicated agent of Surinam Airways and KLM.

### Suriname

In 2017, **SIT** opened the company **Paramaribo International Cargo Office (PICO)** in Suriname. Nowadays our Suriname offices extended of three custom bonded warehouses in Paramaribo and one in Nickerie West-Suriname near to the border of Guyana-Moleson Creek. PICO is the only dedicated KLM cargo agent in Suriname with an owned export office on Airport JAP Zanderij. We represent the KLM for shipments out of Suriname to any destination worldwide with as transit hub Amsterdam.

**Paramaribo International Cargo Office**

**For all your air- and sea freight from and to South America**

## Guyana

### Destination Georgetown:

Airfreight from Europe to Georgetown can be shipped via Suriname – JAP Airport Paramaribo.

From Europe, Amsterdam Airport, there are daily flights to Paramaribo-Suriname.

### The Total transit time to GEO via

#### Paramaribo by truck is two days.

An alternative route from Europe to GEO is via Miami with a total time of 7 days.

## USA

Our freight forwarding services from MIA Airport will be operational from mid-2023 under the company name:

Surinam Air Cargo USA INC. (SACUSA.)

## Network

We have a wide network as we are official IATA credited agent with no.:57-4-71480010.

This allows us to arrange and assist the collection, customs and transshipment from every continent to main destination.

## Logistics and Transport

### Air freight to South-America:

By air freight there is the possibility to send shipments in Consolidation or Airport to Airport directly from Europe or Miami to:

- Suriname- Paramaribo: Daily flights
- Guyana-Georgetown: Daily flights to Suriname, transit time to GEO +1 day by truck

- French Guyana: Daily flights to Suriname, transit time to French Guyana +1 day by truck

### Air freight to Europe:

For air freight to Europe there is the possibility to send this on various flights.

Therefore we use the airlines: KLM – Surinam Airways and Amerijet.

### Sea freight to South-America:

By seafreight we offer weekly and bi-weekly sailing to these three countries, port of loading: Vlissingen or Antwerpen.

The current schedule is as follow:

- Suriname- Paramaribo: weekly sailing, transit time 15 days
- Guyana-Georgetown: bi-weekly sailing , transit time 20 days
- French Guyana: weekly sailing, transit time 20 days

( Included trucking from Suriname to French Guyana +5 days )

### Sea freight to Europe:

Once a month we have a sailing from Suriname-Paramaribo to The Netherlands Europe, transit time 30 days.

From Guyana to Europe we can provide FCL, LCL or Break Bulk services.

### Miscellaneous Services

- Courier Services
- 24 hours urgent service
- Door to Door Services
